Skills

UML, Kanban, Scrum - OOP - Go Lang - Grails & Groovy - NodeJS - SQL - MongoDB - Javascript - Git - Typescript - ReactJS - NextJS - Astro - Flutter - Dart Lang - Flutter - HTML, CSS, TailwindCss - GitHub.

Experience

Software Developer Junior, RunaID IT - Argentina
(April 2022 - August 2023)

Thrown into a new project, I leveraged agile practices, design translation skills, and object-oriented programming to contribute to both front-end and API development across various web and mobile applications, while demonstrating adaptability through successful transitions on new technologies.

Technical Service Assistant, Dinaware - Argentina
(2019)

Through a government youth employment program ("Plan Empezar Trabajo Joven"), I gained hands-on experience providing part-time technical support to customers, including OS installation, computer building, router configuration, and driver management, which honed my problem-solving skills.

Education

Web Technician Degree, National University of San Luis - Argentina
(2019 - 2021)

Gaining extensive knowledge in development. Emphasized in-depth learning of Programming Fundamentals, Logic of Programming, Basic Mathematics, and a comprehensive understanding of web engineering.

Platzi Platform - Online Technology Courses
(2022 - present)

Actively enrolled in technology courses focused on development and best practices. Concurrently advancing English language proficiency through academy courses.
